Our Mission & Story

To craft elegant, nature-based experiences that honour the land, celebrate local culture and offer guests an elevated escape grounded in sustainability.

HADCO Experiences is the destination management arm of HADCO Group of Companies, established with a bold vision: to transform the way people experience Trinidad and Tobago. Our story began in 2021 with the stewardship of the ecolodge at the iconic Asa Wright Nature Centre, followed by the revitalisation of Mt. Plaisir Estate Hotel and the charming Pawi Lodge.

As a 100% locally-owned company, our commitment runs deep. We are driven not by trends, but by a love for these islands – their rivers and rainforests, coastlines and culture. Our experiences are curated not only to showcase this natural wealth, but to preserve and protect it.

Whether you're stargazing on a secluded beach, sipping local cuisine beneath the canopy, or waking to the call of rare birds, every detail is designed to indulge the senses and nurture the soul.

Our Sustainability Efforts

At the heart of all that we do is our mission to promote conservation and responsible tourism practices.

We are dedicated to showcasing the natural treasures of Trinidad and Tobago while preserving these resources for generations of future visitors.

We consider ourselves stewards of their homes, so we have made concerted efforts to reduce our ecological imprint.

As part of our commitment, Mt. Plaisir Estate Hotel proudly holds Green Key certification, an internationally recognised eco-label awarded to establishments that adhere to stringent environmental standards.

This certification reflects our dedication to sustainable operations, including energy and water conservation, waste reduction and the promotion of eco-friendly practices throughout our facilities.

It is our pleasure to welcome you to our little corner of these beautiful islands. We hope that your stay with us will become a treasured memory.

Green Key

MT. PLAISIR ESTATE HOTEL

The story of Mt. Plaisir Estate Hotel began with a visit by Italian photojournalist Piero Guerrini, who visited Trinidad in 1993 to photograph Nobel Laureate, Derek Walcott.

On his visit, he traversed to the rural town of Grande Riviere, tucked away against the blue-green shores on the Northeastern coast of the island. Captivated by the serenity and abundant beauty of the area, he had a vision of transforming the then cocoa estate into a hotel.

One of the biggest attractions for Piero was the nesting Leatherback turtles, who return to nest on the sandy shores of the Grande Riviere beach between the months of March to August annually. He felt that this secluded town emanated a special kind of magic; the kind that people from across the world should experience.

He ventured to build Mt. Plaisir Estate Hotel, starting with 12 rooms, further expanding it and staffing it with labour and food items sourced from the surrounding community.

After three decades in the business, Piero felt it was time to hand the reins to another party; and personally selected HADCO Experiences to continue the legacy he had started on his visit to these shores so many moons ago.

In 2023, after a period of renovation, Mt. Plaisir Estate Hotel was reopened to the public. Past guests of the hotel will still find many of the friendly faces they remember, along with newer ones, all from the surrounding community. HADCO Experiences maintains many of the ideals that Piero envisioned, from supporting the community through employment, sourcing fish and produce from local vendors and highlighting the main attraction to the area: the Leatherback turtles.

Many of the initiatives undertaken by the company revolve around the community and environmental needs of the area; and there are touches of the old building incorporated throughout the hotel, ensuring that the stories live on.

Guests can also visit the nearby Pawi Lodge to see the Critically Endangered Trinidad Piping-guan or Pawi, whose numbers are being revitalized through the conservation efforts of the community and other partners, an initiative in which HADCO Experiences is proud to be involved.

As a part of this close-knit community, we welcome you to enjoy our facilities and experience the magic of Grande Riviere. You are sure to leave with warm and unforgettable memories!

TURTLE - WATCHING TOURS

WITNESS THE MIRACLE UNFOLD

Turtle-watching Tours are available from March to September annually. Adults can be found nesting from March to August, while hatchlings can be seen from July to September.

TURTLE WATCHING TIPS

- A turtle watching permit is required.
- Always use an experienced tour guide, who understands the terrain and can mitigate any risks to the turtles and human life.
- Wear comfortable shoes and warm clothing for the night.
- Limit the consumption of food and/or the use of disposable wares during your wait. Additionally, do not attempt to feed the sea turtles.
- Avoid the use of flashlights and other devices that emit white light, as this can distress the turtles.
- If you must take photos, they should be taken without flash. Cameras equipped with infrared lenses are preferred.
- Limit movements and sounds. Turtles are very easily startled and will return to the sea without laying their eggs if they sense any disturbance. You will be guided on where it's best to stand. If the turtles show any signs of distress, move away immediately.
- Allow hatchlings to emerge and proceed to the ocean on their own. Avoid touching or redirecting them unless it is an extreme case of imminent danger.
- Do not sit on the turtles or attempt to lift or touch them in any manner.
- Do not use beach furniture and stakes or bury items in the sand.
- Do not drive or ride bicycles on the beach.

HIKING & CULTURAL TOURS

EDUCATION & ADVENTURE

Hiking Tips

Pre-Hike Preparation

1. Hydration (starts two (2) days before the hike)

- Begin hydrating at least 48 hours before the hike to prevent dehydration on the trail.
- Drink at least two (2) litres of water per day leading up to your hike.
- Avoid excessive caffeine or alcohol, as these can lead to dehydration.

2. Nutrition (starts the night before the hike – carb load!)

- Eat a balanced, carb-rich meal the night before to fuel your body.
Good options include:
 - Whole grain pasta or rice
 - Potatoes or sweet potatoes
 - Oatmeal or whole wheat bread
 - Lean proteins (chicken, fish, beans)Avoid heavy, greasy, or overly spicy foods that may cause discomfort.

3. Sleep and Rest

- Get a full night's sleep (7 to 9 hours) to ensure you are well-rested for the hike.

What to Pack – Always pack what you can comfortably carry.

1. Backpack Essentials

- Water (at least 2L per person) – a reusable water bottle or hydration pack is recommended.
- Snacks for energy – pack lightweight, nutritious foods such as:
 - Fresh fruits (banana, apples, oranges)
 - Nuts, trail mix, or energy bars
 - Sandwiches (peanut butter, cheese, or turkey are great options)
 - As meals are included for you at the properties (with overnight stays), we are happy to prepare your selection (subject to seasonality and availability of items for your hike.)
- Electrolytes – Consider carrying coconut water or sports drinks.
- Sun protection – Carry a hat and sunscreen.
- Natural bug repellent – Non-toxic insect repellent to protect against mosquitoes and other insects.

2. Appropriate Clothing and Footwear

- Wear lightweight, moisture-wicking clothing (avoid cotton, as it retains moisture.)
- Avoid wearing dark clothing and highly fragranced body products (lotions, perfumes, oils, etc.)
- Wear sturdy, comfortable hiking shoes or boots with good grip.
- Bring extra socks in case of wet conditions, as well as gloves. Be mindful that jewellery can become entangled in branches while on hiking trails.

On the Trail: Hiking Tips

- Start slow and pace yourself – don't rush; take breaks when needed.
- Drink water regularly – sip water throughout the hike, even if you do not feel thirsty.
- Snack every 1-2 hours – keep energy levels up with small, nutritious snacks.
- Respect nature – stay on marked trails, do not litter, watch out for animals and avoid disturbing the wildlife.
- Listen to your body – if you feel dizzy, weak, or unwell, stop and ask your guide for help.

After the Hike: Recovery Tips

- Rehydrate – drink plenty of water and replenish electrolytes.
- Stretch and cool down – helps reduce muscle soreness.
- Eat a protein-rich meal – aids in muscle recovery.

**By following these preparation tips, you will enjoy a safe and memorable hiking experience!
If you have any questions, feel free to ask your guide before the hike.**
